Power	75W
Output pressure	0-47.9psi
DC 12V (Car batteries)	12V Car batteries
Air pressure output	External Air Supply
Test oil capacity	100ml
Package size(cm)	35.5x26x19
Gross weight (kg)	2.32

TS-9156

AUTOMOBILE SMOKE LEAK DETECTOR

- Smoke leak detector is specially designed for leakage detection of automobile intake system, fuel system, cooling system and other pipelines. It is suitable for all household cars, motorcycles, snowmobiles, SUVs, ATVs, light trucks and speedboats. It is the golden location of the leaking point and quickly detect the hidden fault of the automobile engine.
- Applicable but not limited to leak detection of the below system components: throttle shaft, turbocharger system, intercooling system, three-way catalysis, exhaust gas recirculation valve, brake booster, front and rear oil seals, air chamber cover, gaskets ring and connectors, diaphragm and valve seat, headlamp assembly, vacuum pipe and other soft pipes, central locking system, door and window seals, oil circuit, coolant circulation system.
- Built in air pump; with and high temperature protection.
- Supply smoke quickly and heavy.
- 12V DC, voltage power.
- Compact and portable.
