COOLING SYSTEM TESTER SET

Contents:

- 10 x Reservoir & Radiator Pressure Caps
- High capacity metal bodied hand pump
- Quick-Connect Hose Assembly

Applications include:

DAF / Iveco / MAN / Mercedes-Benz /
Renault / Scania / Volvo...etc

Brief application introduce:

1. Before using, test the operation of the pump so that pressure is generated and is holding
2. Safely remove expansion bottle cap or radiator cap
3. Select the correct cap adapter from application list and connect to expansion bottle or radiator
4. Connect pump to the cap and pressurize the system to 1-1.5bar (Do not over pressurize)
5. If the pressure remains the same and does not fall, the cooling system is in good order
6. If the pressure falls then there is a leak in the cooling system
