ARW-9902 / 9903

9902 7" ANGLE POLISHER, 1HP-2500RPM

9903 7" ANGLE POLISHER, 1HP-4000RPM

Benefits:

- Powerful motor provides high productivity
- Maximized operator comfort
- Lightweight with side handle for easy handling
- Excellent for buffing and polishing flat and contour surface

Features:

- Heavy-duty angle sander/polisher
- Built-in air regulator
- High quality bearings and high accuracy alloy steel bevelgears provide stable and long tool life
- Spindle Thread: 5/8"-11 or M14x2

7 BLADE & 4 FLAT CONNECTOR TESTER

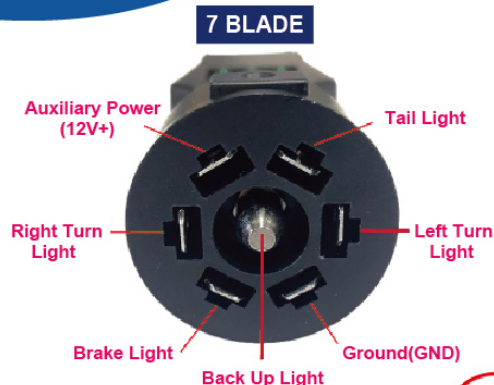

Left Turn Light
Tail Light
Ground(GND)
Right Turn Light

LED INDICATORS

BU: Back Up Light
BK: Brake Light
12V: Auxiliary Power (12V+)
LT: Left Turn Light
TM: Tail Light
RT: Right Turn Light

- The product comes handy when the need of checking the circuit's configuration arises.
- 4 pins which makes the product perfectly usable.
- The trailer plug tester is extremely easy and convenient to use.
- Use in the garages, workshops where there is a need to check the configuration of circuit.
- No batteries required.

VEHICLE SIDE

Application

BE-9076C

4-PIN FLAT TRAILER WIRING TOWING VEHICLE SOCKET TESTER

LED Indication Light
TAIL: Tail Light
LT: Left Turn Light
RT: Right Turn Light

- Fits 4-Pin small size Trailer Light Tester & Circuit Troubleshooter, quickly and easily see if your trailer wiring is properly installed on your vehicle.
- No batteries required.
- LED light indication: Test right, left, turn, and brake lights for proper function.
- Easy to carry, compact design fits in your pocket

TRAILER SIDE

PC-9343

DRIVE FLANGE LOCKING KIT

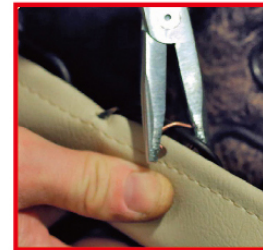

- Designed to allow the drive flange to be locked preventing rotation when loosening or tightening inner drive shaft mounting bolts and hub nuts. Easily fitted utilising the vehicles own wheel bolts or nuts ensuring the specially designed plastic wheel wedges between the brake caliper and drive flange.
- Drive flange hub locking device.
- Used to lock car drive flanges and drive shafts allowing the removal of driveshaft and hub fixings
- One man operation - no need for an assistant to hold the flange.
- Easy to use and reposition for multiple bolt removal (inner drive shaft bolts).
- Durable plastic wheels prevent damage to brake components or hub

GT-9543

7" CIRCLE RING PLIER W/100PCS CLIPS

- Special design for vehicle seat clamp

GT-9543-1

ET-9361

JAKE BRAKE FEELER GAUGE 7MM,4.6MM,4.1MM

- Useful to keep engine noise down and keep your engine performing to its optimum level
- Insert this tool between the slave pistons contact surface with the exhaust valve adjusting screw. The feeler gage must be inserted from the sides to clear the slave bridge. The lash adjustment must be performed on both slave piston adjusting screws on each cylinder.
